EDUCATION

About Us

Join a nationwide, NIH-funded research study testing an educational program for family caregivers of people with Parkinson's Disease plus any changes in memory or thinking. Family caregivers will gain weekly educational guidance through a 12-week curriculum with short readings, resources and activities. All participation is virtual.

Who

Family caregivers who noticed changes in memory or thinking in the past 2-3 years

Length

All participants receive 12 weeks of educational materials and 6 months of follow up surveys

Gratitude

You may receive up to \$275 for completing study surveys
